

SUPPLY CONTRACT NOTICE

„PPREVENT! FLOOD”

Baja - Hungary

1. Publication reference

HUSRB/1602/11/0225-2

2. Procedure

Open procedure

3. Programme title

„PPREVENT! FLOOD”

4. Financing

The project is co-financed by the European Union, in accordance with the rules of Interreg-IPA CBC Hungary-Serbia (HUSRB/1602) programme. The project is co-financed by budget of Hungary.

5. Contracting authority

Municipality of Baja
H-6500 Baja
Szentháromság Square 1.
Hungary

Clarifications may be sought from the contracting authority at the following email address magistratum.tothcsaba@gmail.com at the latest 21 days before the deadline for submission of applications stated at the point 19 below.

Clarifications will be published on the website of DG International Cooperation and Development at the latest 5 days before the deadline.

CONTRACT SPECIFICATIONS

6. Description of the contract

The project contains 5 main elements:

Design of flood protection work and water leakage monitor system

Building of 5 monitoring wells, and the incorporation of their respective instruments

Monitoring of the Nagypandúr Island's water steering lock, design of the system

Instruments for measurement and control the water quality of river Sugovica

Design and system building of so-called ÁIR

Specifications are included in technical description.

7. Number and titles of lots

One lot only

TERMS OF PARTICIPATION

8. Eligibility and rules of origin

Participation is open to all natural persons who are nationals of and legal persons (participating either individually or in a grouping – consortium – of tenderers) which are effectively established in a Member State of the European Union or in a eligible country or territory as defined under the Regulation (EU) No 236/2014 establishing common rules and procedures for the implementation of the Union's instruments for external action (CIR) for the applicable instrument under which the contract is financed (see also heading 22 below). Participation is also open to international organisations.

All supplies under this contract must originate in one or more of these countries.

Please be aware that after the United Kingdom's withdrawal from the EU, the rules of access to EU procurement procedures of economic operators established in third countries and of goods originating from third countries] will apply to candidates or tenderers from the United Kingdom, and to all candidates or tenderers proposing goods originating from the United Kingdom depending on the outcome of negotiations. In case such access is not provided by legal provisions in force at the time of the contract award, candidates or tenderers from the United Kingdom, and candidates or tenderers proposing goods originating from the United Kingdom could be rejected from the procurement procedure

All supplies under this contract must originate in one or more of these countries.

9. Grounds for exclusion

Tenderers must submit a signed declaration, included in the tender form for a supply contract, to the effect that they are not in any of the situations listed in Section 2.6.10.1. of the practical guide.

Tenderers included in the lists of EU restrictive measures (see Section 2.4. of the PRAG) at the moment of the award decision cannot be awarded the contract.

10. Number of tenders

The candidates may submit an application for one lot only, several lots or all of the lots, but only one application may be submitted per lot. Tenders for parts of a lot will not be considered. Tenderers may not submit a tender for a variant solution in addition to their tender for the supplies required in the tender dossier.

11. Tender guarantee

No tender guarantee is required.

12. Performance guarantee

The successful tenderer will be asked to provide a performance guarantee of 5% of the amount of the contract at the signing of the contract. This guarantee must be provided together with the return of the countersigned contract no later than 30 days after the tenderer receives the contract signed by the contracting authority. If the selected tenderer fails to provide such a guarantee within this period, the contract will be void and a new contract may be drawn up and sent to the tenderer which has submitted the next cheapest compliant tender.

13. Information meeting and/or site visit

No information meeting is planned.

14. Tender validity

Tenders must remain valid for a period of 90 days after the deadline for submission of tenders. In exceptional circumstances, the contracting authority may, before the validity period expires, request that tenderers extend the validity of tenders for a specific period (see para 8.2 of the instructions to tenderers).

15. Period of implementation of tasks

Deadline for the performance of the contract: 15/09/2019

To extend the deadline is not possible.

SELECTION AND AWARD CRITERIA

16. Selection criteria

The following selection criteria will be applied to tenderers. In the case of tenders submitted by a consortium, these selection criteria will be applied to the consortium as a whole unless specified otherwise. The selection criteria will not be applied to natural

persons and single-member companies when they are sub-contractors:

- 1) Economic and financial capacity of tenderer (based on i.a. item 3 of the tender form for a supply contract). In case of tenderer being a public body, equivalent information should be provided. The reference period which will be taken into account will be the last three years for which accounts have been closed.

The selection criteria for each tenderer are as follows:

The average annual turnover of the tenderer in the past 3 years must be at least HUF 30.000.000.

Proof documents: Statements of overall turnover for the last three financial years, for which accounts have been closed.

- 2) Professional capacity of tenderer (based on i.a. items 4 and 5 of the tender form for a supply contract). The reference period which will be taken into account will be the last five years from submission deadline.

The selection criteria for each tenderer are as follows:

Tenderer has one professional designer, who has 10 years of professional experience of the same nature as the subject of the tender. Designer has one of the following design rights:

- VZ-TEL – Design of municipal waterworks
 - TV – Municipal waterworks specialty in town planning
 - VZ-TER – Design of territorial water managements structures
 - VZ-VKG – Design of water resource managements structures
 - Environmental expert rights (specialization of air defense, soil protection, water protection)
- 3) Technical capacity of tenderer (based on i.a. items 5 and 6 of the tender form for a supply contract). The reference period which will be taken into account will be the last five years from submission deadline.
 - Preparation of 1 piece monitoring system plan related to hydrographic, or flood protection, or water management, or water governance, or river regulation, or lake regulation, or meteorological measurement
 - 1 piece monitoring system building related to hydrographic, or flood protection, or water management, or water governance, or river regulation, or lake regulation, or meteorological measurement
 - Either tenderer made at least 1 industrial measurement of a similar magnitude. The measurement was done by data collection, programming of probe and data collection tool.

Or planning of monitoring system and creating central management software to this monitoring system. The monitoring system and the software related to industrial water treatment, water control, water governance facilities.

- The tenderer has delivered 3 sensors under 1 contract. Sensors in the reference must according to this tender specifications.

This means that the contract the tenderer refers to could have been started or completed at any time during the indicated period but it does not necessarily have to be started and completed during that period, nor implemented during the entire period. Tenderers are allowed to refer either to projects completed within the reference period (although started earlier) or to projects not yet completed. In the first case the project will be considered in its whole if proper evidence of performance is provided (statement or certificate from the entity which awarded the contract, final acceptance). In case of projects still on-going only the portion satisfactorily completed during the reference period will be taken into consideration. This portion will have to be supported by documentary evidence (similarly to projects completed) also detailing its value.

Capacity-providing entities

An economic operator may, where appropriate and for a particular contract, rely on the capacities of other entities, regardless of the legal nature of the links which it has with them. Some examples of when it may not be considered appropriate by the contracting authority are when the tenderer relies in majority on the capacities of other entities or when they rely on key criteria. If the tenderer relies on other entities it must prove to the contracting authority that it will have at its disposal the resources necessary for performance of the contract, for example by producing a commitment on the part of those entities to place those resources at its disposal. Such entities, for instance the parent company of the economic operator, must respect the same rules of eligibility and notably that of nationality, as the economic operator relying on them and must comply with the selection criteria for which the economic operator relies on them. Furthermore, the data for this third entity for the relevant selection criterion should be included in the tender in a separate document. Proof of the capacity will also have to be furnished when requested by the contracting authority.

With regard to technical and professional criteria, a tenderer may only rely on the capacities of other entities where the latter will perform the tasks for which these capacities are required.

With regard to economic and financial criteria, the entities upon whose capacity the tenderer relies, become jointly and severally liable for the performance of the contract.

17. Award criteria

The sole award criterion will be the price: the most economically advantageous tender is the technically compliant tender with the lowest price.

TENDERING

18. How to obtain the tender dossier

The tender dossier is available from the following Internet address: <https://webgate.ec.europa.eu/europeaid/online-services/index.cfm?do=publi.welcome>. The tender dossier is also available from the contracting authority (magistratum.tothcsaba@gmail.com). Tenders must be submitted using the standard tender form for a supply contract included in the tender dossier, whose format and instructions must be strictly observed.

Tenderers with questions regarding this tender should send them in writing to magistratum.tothcsaba@gmail.com (mentioning the publication reference shown in item 1) at the latest 21 days before the deadline for submission of tenders given in item 19. The contracting authority must reply to all tenderers' questions at the latest 11 days before the deadline for submission of tenders. Eventual clarifications or minor changes to the tender dossier shall be published at the latest 11 days before the submission deadline on the website of DG International Cooperation and Development at <https://webgate.ec.europa.eu/europeaid/online-services/index.cfm?do=publi.welcome>

19. Deadline for submission of tenders

The candidate/tenderer's attention is drawn to the fact that there are two different systems for sending applications/tenders, either by post or private mail service, or by hand delivery.

In the first case, the application/tender must be sent before the date and time limit for submission, as evidenced by the postmark or deposit slip¹, but in the second case it is the acknowledgment of receipt given at the time of the delivery of the application/tender which will serve as proof.

10:00 Central European Time on 29/11/2018.

Any tender submitted to the contracting authority after this deadline will not be considered.

The contracting authority may, for reasons of administrative efficiency, reject any application or tender submitted on time to the postal service but received, for any reason beyond the contracting authority's control, after the effective date of approval of the short-list report or of the evaluation report, if accepting applications or tenders that were submitted on time but arrived late would considerably delay the evaluation procedure (for instance when applications or tenders are received after the evaluation committee has finished its works and evaluating them would imply re-calling the evaluation committee) or jeopardise decisions already taken and notified.

How tenders may be submitted

Tenders must be submitted in English exclusively to the contracting authority in a sealed envelope:

- EITHER by post or by courier service, in which case the evidence shall be constituted by the postmark or the date of the deposit slip, to :

Municipality of Baja
H-6500 Baja
Szentháromság Square 1.
Hungary

¹ It is recommended to use registered mail in case the postmark would not be readable.

- OR hand delivered by the participant in person or by an agent directly to the premises of the contracting authority in return for a signed and dated receipt, in which case the evidence shall be constituted by this acknowledgement of receipt, to:

Orsolya Wolfárt, +36 20/443-5738
Municipality of Baja
H-6500 Baja
Szentháromság Square 1.
Hungary

The contract title and the Publication reference (see item 1 above) must be clearly marked on the envelope containing the tender and must always be mentioned in all subsequent correspondence with the contracting authority.

Tenders submitted by any other means will not be considered.

By submitting a tender candidates accept to receive notification of the outcome of the procedure by electronic means. Such notification shall be deemed to have been received on the date upon which the contracting authority sends it to the electronic address referred to in the tender.

20. Tender opening session

04/12/2018 11:00

Municipality of Baja H-6500 Baja, Szentháromság Square 1. Hungary

21. Language of the procedure

All written communications for this tender procedure and contract must be in English.

22. Legal basis²

Regulation (EU) No 236/2014 of the European Parliament and of the Council of 11 March 2014 laying down common rules and procedures for the implementation of the Union's instruments for financing external action and the rules of Interreg-IPA CBC Hungary-Serbia (HUSRB/1602) programme.

23. Additional information

Not relevant.

² Please state any specificity that might have an impact on rules on participation (such as geographic or thematic or long/short term).
